*Nine Decades of building success...*

October 3, 2014

To Whom It May Concern,

As a long-time member of the New Mexico building industry, it is my distinct pleasure to recommend Atlas Electrical Construction, Inc.

Over the last eight years, I have had the opportunity to work with this company several times on various healthcare and educational projects. In particular, I choose Atlas when an electrical design/build partner is required. Owner Justin Taibbi is extremely knowledgeable, proactive, responsive, and interested in helping identify the right path forward. Atlas's field team follows up on making the plan a reality. Our recent infrastructure replacement project at Manzano Day School, with a tight 70 day schedule, was successfully completed on time and under budget in large part because of having Atlas as a key member of the team.

I am in the opinion that this organization is among the most professional in our state. I wouldn't hesitate to work with them again.

Please feel free to contact me to discuss any of my comments.

Sincerely,

Jori Smith, CSI, CDT, LEED AP BD+C  
Sr. Project Manager
